

Local Sourcing Policy

Schemata Workshop believes local sourcing, or buying locally, is an important component of healthy and sustainable communities and economies. Local sourcing represents an opportunity for organizations to ensure a sustainable supply of goods and services while building a more locally based, self-sustaining economy and strengthening the social health of communities. Schemata Workshop will seek out local sourcing opportunities for its needs. As a geographic component of local sourcing, and whenever possible, Schemata will make purchases of goods and services from sources within a 300-mile radius from its office. Regional sourcing will take place from within a 600-mile radius.

Schemata Workshop is an advocate of Local Sourcing and Shop Local groups.
