

Responsible Investing

VMDO supports socially responsible investing (SRI) and advocacy. Socially responsible investing is an investment in people, community, environment, and country as well as in the prosperity of any organization. We support ethical businesses that have positive business benefits, that support and protect employees and their families. We align to businesses that are human rights compliant and that do not condone, support, or participate in practices, products, or services that are harmful to society or the environment and that follow progressive, sustainable practices.
