

Positive Products

VMDO strives to purchase, use, and specify positive products and services that contribute constructively to the community. Products and services that VMDO does not associate with include:

- Manufacture or provision of products and services such as weapons and firearms, alcohol, tobacco, narcotics and other illicit drugs, pornography, fossil fuel extraction and refining, products made from known or suspected carcinogens, products made from petroleum byproducts, non-nutritional "junk" foods and beverages, or the nuclear industry; Involvement in gambling, prostitution, payday lending, genetically modified foods or patenting life.

VMDO works to screen its potential corporate involvements, purchases, and uses of products and services against its prohibited list above to help ensure there is no selection of banned involvement.
