

ANIMAL WELFARE POLICY

stok is committed to supporting animal welfare and is not involved in the production, promotion or sale of goods and services that are averse to the wellbeing of animals. We only purchase products from suppliers who follow animal welfare practices. We do not conduct or participate in any animal testing or experimentation and refuse to do business with enterprises that use inhumane animal treatment practices.

stok is a dog-friendly workplace and we wouldn't have it any other way. We share the office with 2-3 furry teammates on any given day and absolutely love it. We encourage all team members to bring their furry friends into the office and provide beds, food, toys and treats. After all, we want our furry team members have fulfilling days, too!
