

Charitable Giving

Energy Opportunities is committed to charitable giving to worthy causes both within the communities where we are located and to support organizations with similar missions. Charitable giving demonstrates our involvement in our community and enriches the lives of the people in the communities where we live and work. Charitable giving affords our firm opportunities to express our values by supporting causes in alignment with the mission of our firm. Energy Opportunities commits to giving a minimum of 1% of our annual before-tax profits to nonprofit organizations.
