Community Volunteering

Humanscale will encourage team members to consider volunteering; it is not only an investment in the community and its people but also offers an opportunity for personal and professional development.

Volunteering provides valuable community services and strengthens a community in many ways such as supporting families, improving schools, supporting youth and beautifying the community. It is the commitment of time and energy for the benefit of society, the environment and individuals which fosters team building, developing skills and interests and boosts team member morale.

This year, our 15 Sustainability Champions each have a formal goal to coordinate at least one volunteer activity in each of their local offices.
