EMPLOYEE/UNION FRIENDLY

FSi fully supports the right of our employees to self-organize, to create a committee, or to join a union of their own choosing to represent them in collective bargaining. FSi will not resist unions, or take actions against those who are involved in or a member of a union or other informal self-organization. Employees at FSi are strongly encouraged to discuss all concerns with leadership, and all leaders at FSi have an “open door” policy to actively listen to each employee.
