BCA supports human rights and animal welfare. We are not involved in the production, promotion, or sale of goods and services that are antithetical to the well-being of humans or animals.

As an architecture and design firm, BCA is not involved in animal testing, and does not conduct business with factories, farms, slaughterhouses, or other organizations that use inhumane animal treatment practices, nor will we become involved in the future.

We design all of our spaces with the intent to create a safe and healthy environment for human occupants. BCA does not design buildings intended to diminish the welfare of humans.
