

LOCAL BENEFIT | LOCAL SOURCING

Local Sourcing (1.03.04)

Hennebery Eddy is committed to using firms within 300 miles of our projects; these efforts have been consistent since our founding. We have 20 M/W/SDV/ESB-registered firms on our active subcontracting list from the 24-month period ending 12/31/16, representing approximately 38.5% of our vendor services, including landscape architects, engineers, and other specialty consultants used in that time period.

Hennebery Eddy is equally committed to purchasing our internal products and services from local companies. Our policy is to purchase most of our office supplies through local, independently owned stores. Our network and computer services are provided by a Portland-based IT services provider. Food purchased for office lunches is from either locally owned grocers, restaurants, or food carts.

Within the past two years, Hennebery Eddy Architects has purchased more than 70% of its products and services within 300 miles of our office.
