

## **Local Control**

Integrated Eco Strategy seeks to have a direct relationship to the communities that we serve and we embrace the accountability that comes when senior leadership and stakeholders reside in the places they impact. Our goal is to have our senior decision makers live within the communities where we are located. 100% of our senior team resides within a 5 mile radius of our business. We want our leaders to be personally connected to and vested in the community and the environment within which we operate.

IES is an active member of the Business Alliance for Local living Economies (BALLE).
