STATEMENT

POSITIVE PRODUCTS

BCCI is committed to only supporting and investing in positive products and services. These positive products and services value and enhance individuals' lives, communities, and the local environment. The products and services that BCCI utilize range from Bay Area restaurants and markets for catered events to every day office supplies.

BCCI uses Proposition Chicken for various catering events. They are a local company with restaurants in San Francisco and Oakland. They give back to their local community through their Non-Profit Monday program. Every Monday, they donate 10% of all dine-in sales to a different non-profit each month. Lists of non-profits from 2016-2019 are listed here: <https://www.propositionchicken.com/non-profit-monday/>.

BCCI uses Boxed Foods for various catering events. They are committed to serving only the very freshest, tastiest, and most nutritional ingredients available at the time. The majority of the time this means organic and local. The best taste, nutrition, and freshness are usually found in the organic produce grown by local farms, but sometimes small farms have organic, sustainable, and responsible practices but still aren't certified "organic." The farms and produce suppliers they do business with have been thoroughly vetted for sustainable practices and respect for the land. All their meats are naturally raised, hormone-free, antibiotic-free, free range, and humanely treated. Their food packaging is all made from recycled materials, and majority of their waste is compostable.

BCCI uses La Mediterranee for various catering events for their efforts with made-from-scratch nutritional foods, and a commitment to recyclable and compostable serving ware. They are committed to using locally sourced produce when available.

BCCI uses Mixt for various catering events. They've played a big role in creating lasting change for environmental sustainability in restaurants. Their can-do attitude is how they approach their entire business – from employee benefits to the food they serve. They don't source foods where pesticides, chemicals or GMO's are used. Some notable accomplishments include sourcing 102 local ingredients, diverting 99% waste from landfills, serving 1 million+ lbs of local, sustainable and organic veggies annually.

BCCI uses Pizzelle di North Beach for various catering events. It is a local business that uses the finest ingredients and offers the best of freshness to their customers.

BCCI uses La Cornetta for various catering events. It is a local business that offers a wide variety of fresh and delicious Mexican food. They offer vegetarian and vegan dishes too.

BCCI uses The FruitGuys for twice-weekly, in-office fruit service. The FruitGuys produce is sourced from various small family farms when seasonally available. To maintain seasonal produce, the family farm vendors may alternate. However, as a consumer, BCCI can always track where its produce is coming from on The FruitGuys "What's in the Mix" webpage. The

FruitGuys is a certified organic food handler through California Certified Organic Farmers, and BCCI is committed to ordering the organic mix.

BCCI uses Whole Foods for various catering events as it is easily accessible via Instacart. Even though Whole Foods is a very large company with a myriad of products, BCCI is conscious of the items being purchased. Whole Foods' mission is to nourish people and the planet. They seek out the finest natural and organic foods available to satisfy and delight customers, promote team member growth & happiness, practice win-win partnerships with suppliers, create profit and prosperity, and care about the community and the environment.

BCCI uses Costco for various catering events. Costco is a large company with many suppliers; however, their commitment comes from within the company. They pride themselves on diversity in their employee and supplier bases, and partner with women-owned and minority businesses, making their commitment to addressing social inequalities and injustices very evident.

BCCI uses Amazon Prime for all office supplies and some office kitchen supplies such as oatmeal, coffee and tea. Amazon is dedicated to many causes, job creation and investment. Over the last 5 years, the company created 125+ jobs in the U.S. each day and has invested over \$100 billion in the U.S. alone. Amazon is also dedicated to sustainability through the circular economy, energy and the environment, sustainable packaging, responsible sourcing, and sustainable partnerships.

Sincerely,

A handwritten signature in blue ink that reads "Norma Adjmi". The signature is written in a cursive style with a small flourish at the end.
