

## STEWARDSHIP

### S01. Responsible Investing

Ambient Energy is committed to socially responsible investing (SRI) and advocacy. Socially responsible investing is an investment in people, community, environment and country as well as in the prosperity of any organization. We support ethical businesses that have positive benefits, that support and protect employees and their families and treat them fairly and with respect, that are human rights compliant, that do not condone, support, or participate in practices, products or services that are harmful to society and the environment, and that follow progressive, sustainable practices that contribute to sustainable economies, communities, and societies. The fund managers for our 401k have assured us that at least one fund in the offering will always be a socially responsible fund. Currently Ambient Energy employees have chosen to allocate over 50% of the 401k plan's total dollars to the socially responsible fund.

A handwritten signature in blue ink that reads "Renee Azerbegi". The signature is written in a cursive style and is positioned above a horizontal line.
