

Stewardship

Responsible Investing

GuernseyTingle is committed to responsible investing. Presently, the firm holds all of its cash assets in a registered community bank. GuernseyTingle's philosophy is to disburse its profits to its shareholders and employees in the form of bonuses; therefore the firm does not have an investment portfolio.

Should GuernseyTingle create an investment portfolio, the firm will abide by Socially Responsible Investing ideals. GuernseyTingle will commit to SRI by studying the social and environment implication of the investments it is considering and make investment decisions based on those findings.
