

COMMITMENT TO SUSTAINABILITY POLICY

Trivers is committed to a sustainable future and to improving the social, economic and environmental well-being of the communities that we serve. We design projects that contribute to the betterment of society and the environment.

To ensure our design solutions support our commitment to sustainability, Trivers requires all design team members to become LEED GA (minimum) within one year of their hire date. In addition, Trivers is a signatory of the 2030 commitment.
