

## STEWARDSHIP

### **S02. Community Volunteering (see Exhibit A, Benefits for more detail)**

Ambient Energy is committed to demonstrating the nature and extent of our community volunteer involvement. Community volunteering is an investment in a community and its peoples. Volunteering provides valuable community services and strengthens a community in many ways such as supporting families, improving schools, supporting youth, and beautifying the community. Community volunteering is an important measure of the civic health of a community, a state and a nation.

Ambient Energy provides up to 8 hours of paid volunteer time annually for each employee to participate in volunteer activities as a service to recognized charitable, non-profit, community, local, state or federal government, and religious organizations. Through our public private partnership with MSU Denver in our Denver facility, there are many volunteer opportunities in partnership with the school that employees should reference. Time should be allocated to Non-Billable Volunteer.
