

evolveEA has a transparency policy and provides ongoing open access and communication to internal and external audiences of important organizational information. This information includes the organization's purpose, goals, governance structure, environmental impacts, and its involvement in social and environmental causes. evolveEA is a carbon neutral company. Our Green House Gas report is posted on our website, along with a later re-assessment of our energy use patterns. We voluntarily disclose key metrics through our B-Corp filings and participation in the Just framework.
